**Step 1. Go to the [NVIDIA NGC](#) page, and click on `Explore NGC Catalog` at the top right:**

Step 2. Click on `Welcome Guest` at the top right, then choose [Sign In/Sign Up](#) to log in or register:

Step 3. Navigate to `AI Foundation Models` **and select one of the available models (ex.** `Llama 2 13B`**):**

Step 4. Generate the API Key of a model (ex. `Llama 2 13B`**) and** keep it**; we will use this API later to perform inference through the NVIDIA Cloud-based LLM:**
